Do you want to know the secrets to investing Schools used to teach practical skills such as home economics, workshop, and things that MIGHT have helped you as an adult. With the global economy, everything practical has been pushed out of school and into life. In school, youre taught a lesson and then given a test. In life, youre given a test that teaches you a lesson. ---Tom Bodett In this global, 247 economy, if you want to get ahead, then you have to teach yourself what others have already learned and what ninety-eight percent of people will be too lazy or oblivious to learning. Does this mean that you can outwork the majority of people to get ahead Yes. But you would benefit from merely being able to out-think them, which is much easier and much more productive. Vilfredo Pareto noticed an unequal relationship between inputs (work) and outputs (results). His theory, commonly known as the 8020 principle, states that 20 of my effort is responsible for 80 of my results. The 20 of the effort you invest should be in optimizing and taking control of four crucial areas of your life: Personal Finance, Real Estate Investing, Money Making Opportunities, and Business Investing. If you are to get out of your life what you really deserve to receive, you will have to know how to manage: Your personal finances understanding your cash flow and by creating opportunities to make more money than you spend. This item ships from La Vergne, TN. Paperback.
