Not only many of the scientific discoveries, but also some of the most brilliant ideas in literature have been accredited to other nations, although they are French in their origin. The purpose of this book is to trace the influence of France from her earliest days to the present time, and to inspire the reader with a real love for the French people. The French people so brilliant, so courageous, so full of animation and vim are a people whom we to-day especially wish to know. The literature helps us to understand and to appreciate them. It tells us what they thought, how they lived, how they fought, and what they did. The French esprit and culture come to us through their literary works. Nowhere else do we find such living wit such love for order, beauty, and clearness of style. The French show a constant tendency to please even when contradicting. They have an original aptitude for sociability, which has endeared them to other nations. The phrases and sentences, as well as words of the French introduced into the English during the Norman Conquest, have had much to do in giving the English a refining tone.
